LOWEST UTILITY RATES

In summary, despite minor annual adjustments, the average Borough utility customer pays less for utilities than most customers outside the Borough. In fact, those residential customers with Borough gas and electric will save over \$1,000 per year in utility expenses, when compared to average gas and electric customers throughout the State of Pennsylvania.

Borough gas, water, sewer, electric, and sanitation rates are much lower than other municipal and private sector utilities.

Also, Electric & Gas departments make a Payment in Lieu of Taxes to support police & fire.

ESSENTIAL WORKERS

Town Council would like to take a moment to thank all Borough employees. In what was a difficult year for everyone, our employees, who are also our friends and neighbors, stepped up and kept the Borough offices, police, fire, EMS, and utilities operating during some challenging times.

In 2021, most employees have volunteered to give up annual cost of living increases to help balance the 2021 budget.

Utility Rates 2021

- No change to the Borough natural gas rate, same since 2013 (Average Home Pays \$804 per year)
- No change to the Borough electric rate, since drop in 2020 (Average Home Pays \$98.90 per month)
- No change to the Borough sanitary sewer rate, same since 2012 (Average Home Pays \$29.50 per month)
- No change to the Borough water rate, same since January 2020 (Average family bill based upon consumption pays: \$17.25 per month)
- No change to the sanitation rate, same since January 2020 (Average Home Pays \$20.81 per month)

Changes Coming Soon to the Storm Water Pollution Control Fee

Beginning in 2022, every non-single-family-residential property (business, multifamily, industrial, commercial, or institution) will pay the fee based upon their actual impervious area on their lot. Called an ERU, each non-residential parcel will be measured against the "equivalent residential unit", and then invoiced a multiple of ERUs based on actual impervious surfaces at the per ERU rate. This plan requires the approval of the Town Council. More discussion to occur before final fees are set and a new calculation method is determined. However, as an interim step, the current flat per sanitary sewer connection fee will rise from \$4 per month per sewer connection to \$5 per month per sewer connection beginning in January 2021. The new calculation methodology, ERUs based on actual impervious surfaces, is now to be delayed until 2022.

Call the Storm Sewer System Manager, Andy Stottlemyer, at (717) 251-2434 to learn about your property's ERU value.

Ambulance Fee

In 2020, Town Council introduced an Ambulance Fee on all water customer invoices. That practice will continue in 2021.

This Ambulance Fee helps defray the costs of the ambulance service being ready-to-serve. It is not a tax, as under State law taxes can only be assessed on the value of real estate. Approximately 40% of property owners are exempt from paying taxes. Further, it is not the Ambulance Club. The Ambulance Club is a voluntary donation program.

This budget approved a minor adjustment to the Ambulance Fee from \$7 in 2020 to \$7.50 per month in 2021.
