

BOROUGH LAND USE (BUILDING)/USE & OCCUPANCY PERMIT PROCESS

The Building Permit process starts with a Land Use (Building)/use & Occupancy Permit Application, which needs to be filled out and returned. **As of May 2010, all Applications must be signed by the Property Owner.** Applications for this are available at Borough Hall, 100 S. Second Street, 2nd Floor or you can call (717) 261-3221. After the application is received and approved, you will receive a letter stating that you may continue with the Land Use (Building)/Use & Occupancy Permit Process. There is no cost for the Borough part of the process. The letter that you receive will state that you may then go to PA Municipal Code Alliance to apply for the PMCA Permitting indicated on the application. You will deal with PA Municipal Code Alliance from this point forward. They will do the inspections and bill you accordingly.

Please be advised that effective April 2010 contractors working on houses built before 1978 must be certified according to the Environmental Protection Agency (EPA) Renovation, Repair and Painting Program. Certification is required for contractors performing renovation, repair and painting projects that disturb lead-based paint in houses built before 1978. NEW UTILITY SERVICE ACCOUNT PROCEDURES AND REQUIREMENTS

Please allow us to take the opportunity to explain to you what is required in order to establish utility service for newly-improved properties within the Borough of Chambersburg.

With new construction, there is often the need for what is considered a “temporary service account”, which is typically placed in the contractor or developer’s name for the purpose of providing service during the construction phase. Should such a “temporary service account” be necessary, no deposit is required. However, it is necessary for the Land Use Permit applicant to provide the appropriate information on the attached form, thereby indicating that such service is being requested, and to whom the service should be invoiced to, until a “permanent service account” is established in the name of the owner (and/or tenant, if applicable). At the time of submission, the applicant must also provide all necessary billing information for the “permanent service account”, if it is known at the time of submission. Upon receipt of this information, with the submission of a Land Use Permit application, Utility Customer Service will establish a “temporary service account” account under the name and billing address provided. This account will remain inactive until such time as the Customer Service Center (717-263-4111) is contacted with a request to install the temporary service(s), at which time the service(s) will be installed/activated, and the temporary service account will commence billing minimum charges and/or usage.

When the approved Land Use Permit is returned to the applicant, utility billing information, including the new account number (if a temporary service), and the total required deposit amount necessary to establish a “permanent service account” in the name of the owner (and/or tenant, if applicable), will be provided. Should no temporary service be requested, the establishment of an account number will not occur until all deposits are posted, and as such, only the required deposit amounts will be provided at that time.

Prior to establishing permanent utility service in the name of an owner (and/or tenant), the owner must place a deposit with the Borough, and if applicable, the tenant must do the same, for each utility service being requested. For the initiation of a “permanent service account”, whether initially, or as a conversion from a “temporary service account”, the owner of the property must contact Utility Customer Service at Town Hall (717-264-5151), in order to post all necessary deposits, and to complete the necessary paperwork to set up the account. In the event that a tenant will be occupying the property, they too must place their deposit and complete the necessary paperwork with Utility Customer Service at Town Hall, prior to services being billed directly to them.

For **residential** development, the following schedule shall apply. **Please note that the amounts provided are per unit amounts**, e.g. if a four unit apartment building were being constructed, the deposit amounts would be required for each unit, prior to an account and service being established.

<u>CLASS OF SERVICE</u>	<u>AMOUNT</u>
<u>Electric (light and water heater only)</u>	<u>\$ 85.00</u>
<u>Electric heat (light, water heater and heat)</u>	<u>\$180.00</u>
<u>Gas (stove and water heater only)</u>	<u>\$ 35.00</u>
<u>Gas heat (includes stove and water heater)</u>	<u>\$195.00</u>
<u>Water</u>	<u>\$20.00</u>
<u>Sewer</u>	<u>\$25.00</u>

For **commercial/industrial** development, the required deposit amount will be determined on a case-by-case basis, by analyzing comparable commercial/industrial accounts' consumption. These amounts will be provided to the applicant when the approved Land Use Permit is returned to them.
