

***Dirt continues moving as the activity pool takes shape!  
Week of July 3, 2017***

**Crews continue to move dirt, excavate, and set the form of the activity pool. The project remains on schedule!**

***Retaining walls, which will form ramps and stairs, also begin to take shape.***

**The splash pad will exist to the left of this curved wall, in a similar location as the previous baby pool.**
