25 Days and Counting!...

It's coming together quickly!

**Please plan to join us opening weekend, May 26-28,
to experience all the Aquatic Center has to offer!**

Slides are in and both pools are ready for the “Final Application” before filling with water!

Significant progress has been made on the zero-entry section of the Leisure Pool which will contain the water play feature. This section also directly connects into the Lazy River!

Water play unit is assembled and shade sails decorate the facility with colorful variety!

The concrete on the upper deck has been poured, and the steps and retaining walls are in place. Decorative fencing will be installed to comply with building code requirements relative to fall heights.

Color continues to spring up around the entire facility and the Lazy River (below) is also nearly complete and prepped for its final application as well!

The Splash Pad (also referred to as the Spray Ground) has certainly come to life after the unveiling of its colorful water features!

The final Krystalkrete application was applied to the Activity Pool! All pools will be finished with this final process by the end of this week and filled with water!

We hope you'll plan to come take a dip, float along the lazy river, take a thrill ride down a slide, cool off under one of the sprinkling flowers on the Splash Pad, or simply lounge pool-side.

Facility will open Saturday, May 26 at 12 PM for members and 1 PM for the general public. To receive membership information, please call 717-261-3275. Passes discounted 10% through May 25. Purchase, Monday-Friday, 8 AM-5 PM at the Recreation office located at 235 South 3rd St., Chambersburg.
